

AIRCRAFT MAINTENANCE OVERVIEW

JETCO Maintenance Overview Services:

Our boutique style firm has an unmatched reputation for adhering to strong business ethical standards, we always strive for client satisfaction. Client satisfaction is provided through simple diligence, extensive knowledge and good, solid practices. We measure our rewards not only through the compensation we receive, but by the satisfaction we get by truly bringing value to the client.

Maintenance oversight is vitally important to the quality and consistent operation and asset value of your aircraft. Practical application of experience and knowledge by a qualified, dedicated team is essential to an efficient operation. Jetco will ensure the following at all times:

- Ensure the airworthiness of its jets
- 24/7 Maintenance Control Center & Troubleshooting
- Continuously endure audits as required by authorities
- Closely cooperate with maintenance and servicing companies
- Scheduled Maintenance Oversight
- Take responsibility for its quality management and documentation tasks
- Maintenance Provider Audit
- Interior Completions Management

Jetco can manage Aircraft Owners to keep their aircraft into a Controlled Environment during the lease-off and the remarketing period.

Jetco can support aircraft Owners in multiple ways. The main services we can offer you are the following:

- Aircraft Maintenance Program Development
- AD/SB Assessment and Implementation management Maintenance Planning
- Technical Record Management and digitalization
- Defect records and rectification
- Aircraft Flight hours records
- Modification Implementation (i.a.w SB/STC/DOA mod etc.)
- Repair approval process follow-up
- Damage history review and records

Aircraft Phase In /Phase out is a delicate process which links together contractual and airworthiness requirements, maintenance activities and remarketing aspects that, if not properly managed, could lead to time loss and costs raising for all parties.

Jetco is able to support you with dedicated and experienced personnel carrying out:

- Pre-Buy
- Pre-Purchase Inspection (PPI)
- Aircraft delivery or redelivery conditions, analysis and verification
- Tailored work pack preparation or review in accordance with contractual conditions
- Aircraft physical inspections (aircraft pre-buy or pre-lease inspections)
- Technical records review, organization and digitalization
- MRO selection and contracting
- Spare part identification and ordering
